

## Africa Oral Genealogies & Family Histories Project

### *Future Mobile App Features*

1. A way for contractors/interviewers to edit/delete interviewer profiles
2. A way for contractors/interviewers to recapture their 4-digit passcode
3. A pause feature for the audio recording
4. A progress indicator while long audio recording is being saved into the app
5. The ability for the contractors/interviewers to delete interview files from SD Card and/or internal storage
6. A lock-screen widget so that interviewers can see the running time of a recording when the phone goes to sleep
7. Allows the interviewers to submit the first ancestor with only a first name. Remove the requirement for a last name to be present to continue
8. Allow contractors to manage all interviews that are under their account
